

Sirs..MD Docket 04-233 concerning LPFM stations concerns me. KLOVE radio uses transmitter stations to broadcast here in the Omaha and Lincoln area. We have almost a million people here and the Contemporary Christian music that we have 24/7 though KLOVE means much to us and our local church family. KLOVE programming is so professional and makes listening that much more enjoyable, if it was replaced by a local LPFM station it would be not as professional and maybe not even the family orientated programming we have on 88.1,88.9 and 91.9. KLOVE definitely serves the public interest here in Omaha and Lincoln and throughout Nebraska, even though the signal originates in Calif, we have local happenings almost every hour plus national news. We don't want to lose our KLOVE here in Nebraska. Please don't give priority to LPFM over the FM translator service of KLOVE. Thank you ..David Puckett
